

## Current Probe H16 1000A / 5A

The H16 1000A / 5A current probe has been designed for use with multimeters, recorders, power analysers, safety testers etc. for accurate non intrusive measurement of AC current. Using the latest transformer technology, the H16 1000A / 5A can measure currents from 1 A to 1200 A over a frequency range of 30Hz to 10kHz.
