

## Current Probe M3.U 200A / 0.5V

The M3.U 200A / 0.5V current probe has been designed for use with multimeters, recorders, power analysers, safety testers etc. for accurate non intrusive measurement of AC current. Using the latest transformer technology, the M3.U 200A / 0.5V can measure currents from 1A to 300A over a frequency range of 30Hz to 10kHz.
